AWARD WINNING PRODUCT DESIGNS

Flair's unrelenting passion for innovation has achieved International recognition in the form of numerous design award accolades.

GOOD DESIGN AWARD® (CHICAGO)

Founded in 1950 by architects Eero Saarinen, Charles and Ray Eames and Edgar Kaufmann, **GOOD DESIGN®** is the world's oldest Design Awards program. It is organised annually by The Chicago Athenaeum Museum of Architecture and Design. It recognises the work of manufacturers who have undertaken the design challenge to produce product of the most outstanding design globally.

RED DOT DESIGN AWARD (GERMANY)

The **Red Dot** label is recognised as a warranty of design excellence. It is awarded to entrants who demonstrate an innovative spirit with product of the highest quality, form and function gaining this design awards honour.

IF DESIGN AWARD (GERMANY)

The **iF DESIGN AWARD** recognises exceptionally well-designed products. Since 1953, an esteemed jury of International design experts have awarded this symbol to product that is user focused, ergonomic and efficient in its design.

Care, craftsmanship and quality since 1952 in the everyday.

Flair have been designing showering solutions for over 70 years and perfecting them since. Our products are beautifully designed and expertly engineered to stand the test of time in the busiest of bathrooms. From humble beginnings in Cavan, Ireland we are now a leader in creating quality showering solutions for the European market.

Flair products are beautifully designed and expertly engineered to work perfectly and stand the test of time by our team of designers in Dublin. We have a real passion for design innovation and expertly manufactured products. Attention to detail is seen in Flair's design language and careful consideration is given to every aspect of our shower enclosure and wetroom designs. Customer care is a core value for us - a happy customer is at the heart of everything we do.

Flair are proud recipients of several international design awards and hold numerous patents for our **Harmony Collections**. In recent years, our ORO, ETO, ILI and AYO product collections have all been recognised for their excellence in design, innovation and product quality.

flair

At Flair our vision is to produce beautifully designed, expertly crafted showering solutions for everyone and every space so that you can **surround yourself with beauty** and **savour those precious moments** in your everyday. We do this by pushing the frontiers of shower design, with every little detail carefully considered to make the daily routine as harmonious as possible.

For many, showering has the power to lift spirits, calm the mind and invigorate. As you step into a Flair Shower, we encourage you to savour those precious moments in your sacred daily rituals.

Surround yourself with beauty.

**FIND YOUR FLAIR.
CAPTURE THE MOMENT.**

NEW PRODUCT DEVELOPMENT.

IDEA
CONCEPT
PROTOTYPE

With over 70 years of design and innovation behind us, at Flair we know that quality always stands above all.

Our local design team, driven by passion, pushes the boundaries of innovation - always discovering, evolving, and learning.

Every detail is a deliberate choice, carefully crafted to reflect beautiful design in every line and finish.

This is where innovation and quality come together in perfect balance.

ORO ETO ILI AYO

DESIGN AWARDS

Flair are proud to have received three design accolades in recognition of the ORO shower door collection.

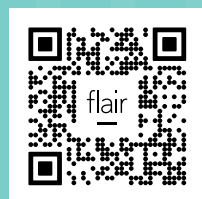

The **Good Design** Award, **RedDot** Award, and **iF Design** Award are seals of global design excellence and a testimony to our passion for product quality and innovation.

PATENTED MAGNETIC GUIDE

The patented Magnetic Guide System is the first of the kind in the industry. It ensures the smoothest of motion for each sliding door as it glides along the bottom rail.

ORO

THE ORO[®] COLLECTION

ORO - the epitome of grace & beauty.

With a graceful aesthetic, the award winning ORO collection is a union of design innovation and functional perfection. This signature collection sets the standard in frameless shower door design.

The hand crafted ORO door handles are one of a kind and distinctly individual. The patented magnetic guide system provides a smooth and effortless gliding action for each sliding door. Elegance shines through the curved profile and hinge detailing.

Each ORO detail is carefully considered to enhance your experience every day.

DESIGN AWARD

Flair are proud to have received the **Good Design** Award accolade in recognition of the ETO shower door collection.

The **Good Design** Award is a seal of global design excellence and a testimony to our passion for product quality and innovation.

PATENTED CLICK FIT ASSEMBLY SYSTEM

This screw free assembly mechanism revolutionises the way ETO shower doors are fitted, reducing assembly time dramatically for installers.

EXPLORE
ETO

THE ETO[®] COLLECTION

Experience elegant practicality with ETO.

Crafted to seamlessly integrate into your daily routine, the ETO shower door collection combines robust design with clever functional innovations.

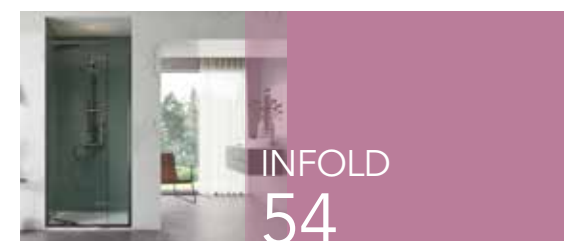

The uniquely shaped handle is beautifully precise and features a cleverly integrated towel hook. Softly curved hinges with a countersunk finish and a slim profile design create a refined shower door aesthetic.

The stylish yet functional simplicity of the ETO collection embodies Design with Purpose, a concept which lies at the heart of this collection.

DESIGN AWARD

Flair are proud to have received the **Good Design** Award accolade in recognition of the AYO wetroom collection.

The **Good Design** Award is a seal of global design excellence and a testimony to our passion for product quality and innovation.

EXPLORE
AYO

THE AYO[®] COLLECTION

The AYO modular wetroom collection is crafted to create a truly personal shower experience.

Standing tall at a height of 2 metres, AYO comes in 8mm and 10mm glass which is treated with a hydrophobic coating that resists the build up of grime and lime scale.

With an abundance of configurations and fixture innovations such as recessed channels, fixed and rotating panels, ultra-clear seals and stylish stabilising bar options, makes this a truly versatile modular wetroom system. AYO boasts 3 glass options - clear, fluted and opaque.

Now available in 9 high quality colour finishes, AYO will pair perfectly with other signature elements in any bathroom.

CORNER WETROOM

8MM CLEAR GLASS

FINISHES:

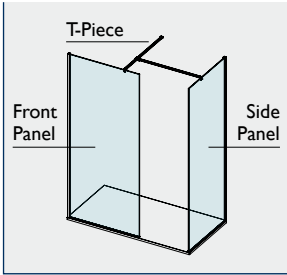

- SILVER
- MATTE BLACK
- BRUSHED BRASS
- MATTE NICKEL
- BRUSHED NICKEL
- COUNTRY BRONZE
- WHITE

Start by choosing your front wetroom panel from page 120, then select your side panel size from the options below. You must also order a T-Piece to complete the corner installation.

Create a spacious, stylish corner wetroom with a sleek two-panel layout supported by stainless steel stabilising bars. Add a matching T-piece for enhanced stability and a seamless, modern finish.

Note: Order your front panel in the size you need from page 120.

This page 124, shows some of our most popular sizes for corner configurations, but any size can be used to create your ideal layout.

AYO[®]

CORNER WETROOM

10MM CLEAR GLASS

Note: Order your front panel in the size you need from page 136.

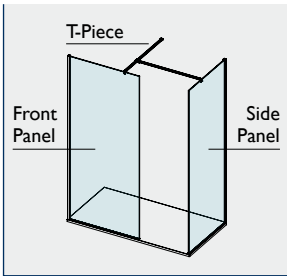

This page 140, shows some of our most popular sizes for corner configurations, but any size can be used to create your ideal layout.

FINISHES:

- SILVER
- MATTE BLACK
- BRUSHED BRASS
- POLISHED GOLD
- MATTE NICKEL
- BRUSHED NICKEL
- COUNTRY BRONZE
- STAINLESS STEEL
- WHITE

Start by choosing your front wetroom panel from page 136, then select your side panel size from the options below. You must also order a T-Piece to complete the corner installation.

Create a spacious, stylish corner wetroom with a sleek two-panel layout supported by stainless steel stabilising bars. Add a matching T-piece for enhanced stability and a seamless, modern finish.

HINGE ROTATING PANEL - CLEAR GLASS - MATTE BLACK

THE PERFECT SHOWER MADE FOR YOU

CHOOSE & MEASURE YOUR SPACE

First things first, analyse the area you have allowed for your shower, and get your measurements correct.

Then simply follow our 5 step process of selecting the components you need to create your personal shower sanctuary.

FOR A CORNER SPACE

FOR AN ALCOVE SPACE

FOR A STRAIGHT OPEN SPACE

Please note:
It is suggested to leave a minimum of 500mm wide access when measuring for your wetroom panel.

FOLLOW OUR SIMPLE 5 STEP PROCESS

1

CHOOSE YOUR LAYOUT

From page 146;
Have a look at our configuration guide on the following pages to help you design your ideal shower space.

2

CHOOSE YOUR GLASS

From page 148;
Choose from an 8mm or 10mm thickness, and also if you'd prefer clear, fluted* or opaque* glass.
*8mm only

3

CHOOSE YOUR WALL PROFILE & STABILISING SOLUTION

From page 150;
Pick from a range of 9 finishes and a selection of stabilising solutions to suit your space and preference.

4

CHOOSE YOUR ACCESSORIES

From page 154;
If needed finish your shower space with one of our accessories - available in a range of finishes.

5

CHOOSE YOUR ROTATING PANEL

From page 156;
Add a rotating panel for added splash protection and a more versatile showering experience.

STEP 1
CHOOSE YOUR LAYOUT

ENDLESS
SHOWERING
POSSIBILITIES

With an almost infinite choice of wetroom layouts, AYO provides maximum flexibility as you personalise your dream shower space.

For ease of ordering, we have created the following layouts for the most popular wetroom configurations.

GEMSTONE INFORMATION

GUARANTEE

Your Gemstone tray must be inspected 100% before installation. Fitting of tray is acceptance of quality. Please read fitting instructions fully before installation.

Before tiling and placing the screen or any other fixed material on the shower tray, please make sure that the perimeters of your tray are 100% level in all directions.

The guarantee only covers the replacement or repair of the product and excludes any other compensation, assembly or travel costs.

Gemstone Trays are guaranteed for 2 years, in accordance with current European regulations.

- The following are excluded from the guarantee:**
- Damage caused by misuse.
 - Damage caused by the use of unsuitable cleaning materials (do not use products containing acids, alcohol, chlorine or solvents, do not spill drain cleaners onto the shower tray, do not use metallic or scouring pads).
 - Damage caused by improper installation.
 - Damage caused by the improper handling of the product.

Our products must be installed by qualified personnel to be eligible for the product guarantee. An installation guide will be delivered with the tray for its proper placement.

- Before installing the tray you should make sure that:**
- The tray drains well and is 100% level.
 - It has no anomalies.
 - **The tray has been stored in a horizontal position on a flat surface until installation.**

CLEANING

- Routine: rinse and leave to dry.
- Thorough: rub with a soft cloth with neutral liquid detergent; for limescale prevention use an anti-lime product.

Please note, Gemstone Trays are manufactured from a natural stone resin composition. You must allow for a tray thickness tolerance of 2 - 3mm.

CHEMICAL TESTS

Chemical resistance tested in accordance with UNE-EN 12527 - No deterioration.

CHEMICAL TESTING COMPOSITION

Acetyl acid (10%), sodium hydroxide (10%), ethanol (70%), bleach, methylene blue (1%).

CLEANING SOLVENT (PRODUCT)	EXPOSURE TIME (DAYS)	RESULT OF VISUAL INSPECTION
Don Limpio Neutral PH	4	No Visible Effect

Hydrogen Peroxide	4	No Visible Effect
Cleaning Solvent	4	No Visible Effect
Methylated Spirits	4	No Visible Effect
Acetone	4	No Visible Effect
Nail Polish Remover	4	No Visible Effect

PACKAGING AND STORAGE

The products are delivered packed in individual boxes with expanded polystyrene reinforcements, including the drainage grate. Gemstone trays must be stored in a horizontal position on a flat surface until installation. This prevents the tray from losing shape.

FAQ

Can it be cut?
Yes, with a diamond cutting wheel.

Please note, Maximum trim of 200mm on rectangular waste trays. Maximum trim of 100mm on linear waste trays, with the cut applied to opposite end to the linear drain.

Can it be repaired?
Although they are highly resistant to any impact, we have a repair kit available to the customer. Please contact us on 01279 443 644 to order your Gemstone Tray repair kit. Lead time applies.

How should the product be cleaned?
We recommend cleaning with water and neutral soap, applied with a sponge, never with scouring products or tools.

What material should I use to install the products?
Your Gemstone tray must be installed on a fully level glue-cement or mortar base. For sealing the product, it is recommended to use MS flexible polyurethane sealant and / or a neutral silicone.

ANTI-SLIP SURFACE

The Benefits of using Anti-Slip Technology:

Clever Anti-Slip surface technology for a lifetime of showering confidence. Ideally suited to families with young children and those who just want to feel confident on their feet while in the shower, this unique patented technology ensures a lifetime of underfoot confidence when showering.

Unlike other Anti-Slip technologies which are applied on top of the surface of the tray after manufacture and wear away over time, our patented Anti-Slip surface is integrated directly into the shower tray at time of manufacture, meaning it never wears away and will last as long as the shower tray.

The Anti-Slip range offers a permanent guaranteed solution. When independently tested to the British standard 7976-2 test, the patent protected surface provided almost twice the bathroom industry standard of slip resistance.

Smart Water Management Control

Our unique Smart Water Management Technology clears water instantly from the tray's surface. This greatly reduced the slip hazard of surplus water and soap deposits.

Although the tray surface appears almost flat, it combines perfectly with the vortex technology of the waste unit to create a vacuum effect beneath the surface.

The result is that almost all surplus water is actually drawn from the tray's surface instantly. In addition, no moving parts or hair traps means no maintenance and no risk of flooding.

SHOWER ACCESSORIES

FLAIR EASY PLUMB KIT

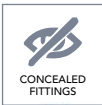

Flair slimline easy plumb shower kits have adjustable legs to comply with building regulations to assist in installation and for maintenance of waste outlets if required after building settlement.

The Flair slimline easy plumb kit provides this access without compromising on style in the bathroom. An easy plumb tray can be made by using any of the Flair slimline trays and a kit. This will increase the height of the tray by 95mm.

Accessories are not to scale - for visual representation only.

QUALITY GUARANTEED

QUALITY GUARANTEED

Please consult the relevant consumer product brochure to view the Guarantee terms offered on each Flair product range.

At Flair we have an unwavering commitment to product quality.

All Flair products are CE approved and manufactured in accordance with ISO 9001:2015 Quality Assurance systems and ISO 14001:2015 Environmental Management systems.

All glass is toughened safety glass and produced to EN12150. Flair products are performance tested to EN14428, ensuring the highest industry criteria is met.

Note: Proof of purchase is necessary to validate your guarantee so retain purchase receipt for your Flair product.

If a Flair shower enclosure is defective in materials or manufacture, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.

AFTERSALES & SPARE PARTS SERVICE

Flair is 100% committed to customer service excellence.

We carry a full range of spare parts for each product range and have dedicated aftersales specialists to deal with any issues you may have.

If you have any queries, please contact Flair on 00353 42 966 8000.

RETURN POLICY

Flair will not accept return of any product that has been opened.

We do not accept return of any product if the packaging has been damaged.

If the product is unopened and not damaged, we will accept the return of the product but a handling fee of 25% of the invoice will be charged.

SHOWER DOOR INSTALLATION ADVICE

BEFORE YOU INSTALL YOUR SHOWER ENCLOSURE PLEASE READ ALL INSTRUCTIONS. FAILURE TO DO SO MAY LEAD TO INVALIDATION OF YOUR GUARANTEE.

Flair Showers Ltd will not accept responsibility for any loss or damage, however caused, if the shower enclosure has not been installed as per the instructions.

- The shower tray MUST be fitted 100% level. The shower tray must be sealed correctly to prevent any water leakage.
- Glass edges are vulnerable and should be treated with care at all times. Contact with hard surfaces may result in glass breakage if due care is not taken.
- Check walls for electrical cabling or water pipes before drilling.
- Your shower enclosure, bath screen or wetroom must be inspected before installation. Check for all visual defects on the product before installation. Once the enclosure has been installed no claims of damage or defect will be accepted. Fitting of shower enclosure is acceptance of quality.
- The wall plugs supplied with the shower door are for use in solid walls. Timber frame, stud partition walls will require alternative fixings.
- Ensure vertical wall profiles are level and are an equal distance in from the tray.
- Shower Doors, Wetroom Screens, Bath Screens and Side Panels are adjustable between the dimensions stated. All dimensions are approximate.
- Ensure adjustment at wall profiles are equal at both sides and that all screws are fully tightened.
- Ensure hinges are level and securely fitted to the glass.
- Ensure magnets are the right orientation and are attracting rather than repelling.
- The shower enclosure should be sealed on the outside only using silicone sealant.

- Care must be taken during assembly. Flair will not accept responsibility where incorrect assembly results in undue stress being put on any components in this product.
- If there are any manufacturer defects, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.
- Note: If a problem has been caused by incorrect installation, a call-out charge will apply for the Flair technical engineer's time. Subsequent charges will apply "to fix" a problem caused by incorrect installation.

BATH SCREEN INSTALLATION

The bath screen must be installed on a 100% level surface with the bath edge free from obstructions.

Bath screens should not be used on a bath with roll top rim, stepped edge rim or where the bath handle void meets the bath screen seal. This will impact on the performance of the bathscreen and the guarantee will be void. The Bath screen should be fitted to the inside edge of the bath only.

A bath screen acts as a water deflector and is not 100% waterproof. If used appropriately under normal showering conditions and installed to the inside edge of the bath, water will be deflected into the showering area. Bath Screens are not suitable for power showers.

SHOWER TRAY INSTALLATION

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive. Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting. Fitting of Shower Tray is acceptance of quality.

NOTE: It is normal for a small amount of localised water to be retained on a shower tray surface after use. This should be wiped dry to prevent any build up of residue.

CLEANING GUIDELINES

- Glass: Use a soft cloth and mild detergent, rinse off thoroughly.
- Metallic Surfaces: Use a soft cloth and warm soapy water. Rinse off thoroughly.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product. These include acidic based cleaning products, bleaches, solvents or abrasive pads. Only use detergents, cleaners and limescale removers with a pH of 5-8.
- The constant use of detergents will degrade the finish of the product over time if not thoroughly rinsed off.
- In hard water areas, regular cleaning of your Flair door will help to prevent the build-up of limescale. Stubborn deposits of limescale can be removed with the use of a mild limescale remover.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit / dirt which may have collected over time.

Glass breakage and components subject to wear are not covered under the lifetime guarantee. All glass complies with EN 12150-1, which is referenced in EN 14428.

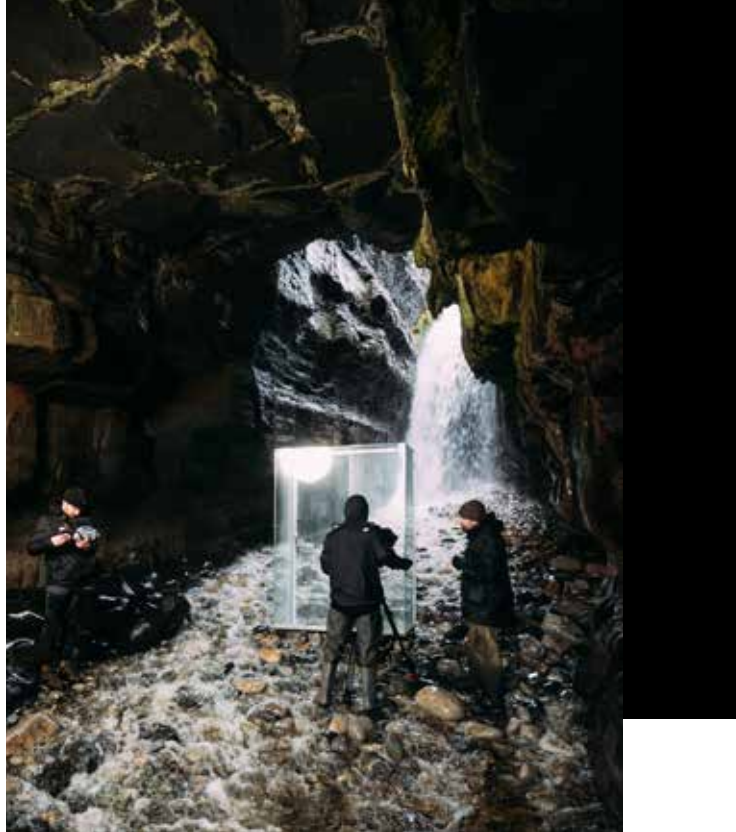

CONDITIONS OF SALE

Unless otherwise stated, all quotations are subject to acceptance within 30 days of date of issue. Other than in the case of faulty goods / incorrect despatch, Flair will not accept the return of any product.

As part of our continuing policy of product improvement, we reserve the right to amend specifications, colours and s without prior notice. Images are for illustrated purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all shower heads and shower wastes in the brochure is for illustrative purposes only.
